\# The initial premium is based on the age of the insured person at the time of policy issuance and other factors including but not limited to the gender and risk class of the insured person and the benefit level of your policy. Premium rates are not guaranteed and may be adjusted by the Company on a portfolio basis at any of the policy anniversaries if necessary. We consider factors including but not limited to (i) the Company's claims and policy persistency experience and (ii) expected claim outgo from all policies under this plan in future years, reflecting the impact of medical trend, medical cost inflation and product feature revisions. This Standard Premium Schedule does not include levy which is collected by the Insurance Authority. Semi-annual and monthly premiums are calculated by multiplying the annual premium by the applicable modal factor. Please refer to www.axa.com.hk for more details.
