latest technological developments with a human touch.

Why Art Insurance?

What can go wrong and cause the damage or loss of value of an artwork or a cultural asset?

There are types of risk related to the environmental context - for example, typhoon and water damage. Climate change and the increasing frequency of natural disasters are factors that we can no longer ignore.

Then there are man-made risks, transport risks and others.

The protection of the artworks and objects that you love starts with awareness and management of the risks.

Our proposition

ARTE Generali is dedicated to the care of every art form and its intergenerational transmission, working on protection and assistance solutions for art collectors, institutions and exhibitors.

ARTE Generali offers innovative and customized services that help collectors protect, preserve, restore and enhance the artworks in their possession by developing unique relationships based on a shared passion.

Given the value, complexity and fragility of the objects handled, finding the right solutions to insure and protect this type of property requires a combination of in-depth expertise with a solid knowledge of risk management aspects.
